**Petition Regarding Patent Term Adjustment (PTA)**  
**Indicated in Notice of Allowance**

Sir:

1. A Notice of Allowance was mailed on December 1, 2009 for the present application. One of the attachments to the Notice of Allowance was a Determination of Patent Term Adjustment Under 35 USC § 154(b) that indicated that the total patent term adjustment (PTA) to date is 0 days. It is believed that the correct total PTA to date is 150 days.

2. The determination of the total PTA of 0 days is erroneous because the US Patent & Trademark Office's (PTO) PTA calculator failed to account for two separate PTO delays. The two PTO delay periods should have their days added together in accordance with the reasoning in *Wyeth et al. v. Dudas*, No. 07-1492 (D.D.C. September 30, 2008), *aff'd Wyeth et al. v. Dudas*, No. 2009-1120 (Fed. Cir. Jan. 7, 2010). The PTA calculation only accounts for one of the delays of the PTO. As a result of accounting for both delays of the PTO, both delays warrant a PTA credit of 431 days for PTO delay under 35 USC § 154(b)(1)(A) and 37 CFR § 1.702(a)(1) and 35 USC § 154(b)(1)(B) and 37 CFR § 1.702(b). The two periods of delay do not overlap, Applicants are entitled to the sum of these two periods. Accordingly, a total PTA credit of 431 days (i.e., 134 days

+ 297 days) is appropriate based upon the PTO delay. The total number of PTA debits of 281 days for applicant delay that is shown on the PTA History on the PTO website is correct. Thus, the correct total PTA to date is 150 days (i.e., 431 days – 281 days).

3. Thus, Applicants believe that the total PTA credit for PTO delay is 431 days, the total PTA debit for applicant delay is 281 days, and the total PTA under 37 CFR § 1.703(f) is 150 days.

4. In accordance with 37 CFR § 1.705(b), this application for patent term adjustment is filed no later than the payment of the issue fee but after the date of mailing of the notice of allowance.

5. The following statements are required by 37 CFR § 1.705(b)(2)(i).

- i) The correct total PTA credit is 431 days.
- ii) The basis for the 128 days of PTA credit is under § 1.702(a)(1) and is due to the PTO's failure to mail a notification under 35 USC § 132 or a notice of allowance within 14 months of the application's filing date. The basis for the 297 days of PTA credit is under § 1.702(b) and is due to the PTO's failure to issue a patent within three years of the filing date. The basis for the 6 days of PTA credit is under § 1.703(a)(2) and is due to PTO's failure to reply after the date that is four months after the date a reply was filed.
- iii) The basis for the 281 days of PTA debit under § 1.704(b) is due to the Applicant's failure to reply to actions by the PTO within three months after the date on which the action was mailed.
- iv) The total PTA under § 1.703(f) is projected to be 150 days, which is the total PTA credit for PTO delay of 431 days less the PTA debit for applicant delay of 281 days.

6. The following statements are required by 37 CFR § 1.705(b)(2)(ii).
  - i) The relevant dates as specified in 37 CFR § 1.703(a)(1) for one part of the PTA credit are as follows: the date of May 23, 2005 which is the date that is fourteen months after the date on which the application was filed under 35 USC § 111(a); and the date of September 28, 2005, which is the mailing date of a notification under 35 USC § 132. Thus, the period of delay runs from May 23, 2005 to September 28, 2005. This period of delay is 128 days.
  - ii) The relevant dates as specified in 37 CFR § 1.703(b) for the other part of the PTA credit are as follows: the date of March 24, 2007 which is the day after the date that is three years after the date on which the application was filed under 35 U.S.C. 111(a); and the date on which a Request for Continued Examination was filed on January 14, 2008. Thus, the period of delay runs from March 24, 2007 to January 14, 2008. This period of delay is 297 days.
  - iii) The relevant dates as specified in 37 CFR § 1.703(a)(2) for PTO's failure to reply after the date that is four months after the date a reply was filed are as follows: the date of December 22, 2008 which is the date on which a Response to a Non-Final Office Action was filed; and the date on which the PTO mailed a Final Office Action on April 28, 2009. This period of delay is 6 days.

8. Any patent granted on this application is not subject to a terminal disclaimer. See 37 CFR § 1.705(b)(2)(iii)

9. The following statements are required by 37 CFR § 1.705(b)(2)(iv)(A) and list circumstances during the prosecution of this application constituting a failure to engage in reasonable efforts to conclude processing or examination of the above-identified patent application as set forth in 37 CFR § 1.704.

- i) The After-Final Response to an Office Action was filed January 12, 2007 after the three month period for filing a response. Under 37 CFR § 1.704(b), the period of adjustment for delay associated with this reply begins on the day after the date that is three months after the date of mailing of the Final Office Action on September 7, 2006 and ends on the date the reply was filed. Thus the period of delay runs from December 8, 2006 to January 12, 2007. This period of delay is 36 days.
- ii) The Response to Non-Final Rejection filed June 7, 2007 under 37 CFR § 1.111 was filed after the three month period for filing a response. Under 37 CFR § 1.704(b), the period of adjustment for delay associated with this reply begins on the day after the date that is three months after the date of mailing of the Non-Final Rejection on February 7, 2007 and ends on the date the reply was filed. Thus the period of delay runs from May 8, 2007 to June 7, 2007. This period of delay is 31 days.
- iii) The Request for Continued Examination in response to Final Rejection filed January 14, 2008 was filed after the three month period for filing a response. Under 37 CFR § 1.704(b), the period of adjustment for delay associated with this reply begins on the day after the date that is three months after the date of mailing of the Final Rejection on September 13, 2007 and ends on the date the reply was filed. Thus the period of delay runs from December 14, 2007 to January 14, 2008. This period of delay is 32 days.
- iv) The Response to Non-Final Rejection filed July 28, 2008 under 37 CFR § 1.111 was filed after the three month period for filing a response. Under 37 CFR § 1.704(b), the period of adjustment for delay associated with this reply begins on the day after the date that is three months after the date of mailing of the Non-Final

Rejection on January 29, 2008 and ends on the date the reply was filed. Thus the period of delay runs from April 30, 2008 to August July 28, 2008. This period of delay is 90 days.

- v) The Request for Continued Examination in response to Final Rejection filed October 28, 2009 was filed after the three month period for filing a response. Under 37 CFR § 1.704(b), the period of adjustment for delay associated with this reply begins on the day after the date that is three months after the date of mailing of the Final Rejection on April 28, 2009 and ends on the date the reply was filed. Thus the period of delay runs from April 29, 2009 to October 28, 2009. This period of delay is 92 days.
- vi) The total PTA debit for applicant delay is 281 days (36 days + 31 days + 32 days + 90 days + 92 days).

10. Applicant reserves the right to file a supplemental Request for Correction of PTA under 37 CFR § 1.705(d) in the event the patent issues on a date other than June 29, 2010.

Respectfully submitted,

Date: 02/26/10

  
N. Dean Powell, Jr.  
Reg. No. 58,909
